Strengthening Your Design Process with Generative AI

Workshop NEST Boot Camp

13th March 2026

Co-funded by
the European Union

Part I - Need-finding & Concept Exploration Session (What & Why)

- What needs do you have in your organisation? What use case ideas do you have, based on your needs?
- Write down your ideas for use cases. If you like, you can use the following format:
Brief: “Suggest an assignment for an AI tool to assist with creating in the process of.....”
- How could using AI benefit you with your use cases?
- What drawbacks and limitations do you see with using AI?

Part II - Concept Feasibility Session (How & Who)

- What AI methods could be used for your use cases?
- What collaboration would you need to realize your ideas?
